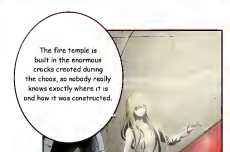
Why did you have to make a crossbow out of a useless rifle ?
It's the only thing I remembered after losing my memories because of the experiments!

What do you think you are touching ?!
What the fu... It was your boob ?!
GET IT OFF ME !!!
GET YOUR BOOBS OFF ME !
Say what ?!
Touching women makes my powers awakened which reduces my already-short lifespan ! Besides, it hurts like hell when my powers get awakened !
Don't you ever let your boobs touch me !
Eh ..., I, I am sorry ... ???
Wait a sec. Why do I have to apologize ?!



The fire temple is built in the enormous cracks created during the chaos, so nobody really knows exactly where it is and how it was constructed.

About this woman, Yun, you told me.

I find it strange that they'd kill her especially when she is the Fire Goddess ? They'd be killing their own God.

Simple. They don't know she is the fire Goddess. Only I do.

Besides, she loses her consciousness as soon as she uses fire, so she doesn't quite know that she can in fact cast fire.

When they found her, she was unconscious and I was out to forage some food.

I find you harder to believe meanwhile.

Whoa ?

I was told all experiments went berserk and died shortly after their powers became awakened. How can you be still alive ?

God damn ... You bring up a bad memory of mine.

It was the day I was declared the finest soldier and then some strange female doctor shaved a needle into my ass ...

It was sudden and let's say it was very unpleasant.

Whatever it was, it seemed to have prolonged my life though ...

But at the same time, I can't touch girls !

As soon as I get excited enough, my heart starts to pump like crazy and my power gets awakened !

I had to be extra careful with touching women during my hunts and eventually I had to bandage myself like this to reduce the chances of getting awakened. Now I am even afraid of taking these off.

If I see that doctor ever again ... I swear I will kill her !

So, that is why the government has used you to hunt down females since they know you can't mess with them.

What ?! Is that how it is ?!

I found it strange that you were hunting women since you seemed decent enough ...

All I want is just a normal life and get married to a girl. That's all.

...

Heh

Ugh

What are you laughing at me for ?!

Maybe, you really are decent enough...

Shut up !

Quit the chitchat and find the fire temple already !

I don't have much time left in me.

Shhh, we are almost there already.

Thus should be one of the entrances. I don't know where she is exactly though.

Don't worry. I think I know a good way to locate her.

Oh, yeah ?

What is ...

?

!!
